

Comparison of Meal Pattern Requirements for the Milk Component in School Nutrition Programs

School Year 2021-22

The U.S. Department of Agriculture (USDA) has different requirements for the milk component in the meal patterns for grades K-12 and preschoolers (ages 1-4) in the National School Lunch Program (NSLP), School Breakfast Program (SBP), Seamless Summer Option (SSO) of the NSLP, Afterschool Snack Program (ASP) of the NSLP, and Special Milk Program (SMP). The SSO follows the NSLP and SBP meal patterns.

The milk requirements for grades K-12 are defined by the USDA regulations for the NSLP ([7 CFR Part 210](#)), SBP ([7 CFR Part 220](#)), and SMP ([7 CFR Part 215](#)). The preschool meal patterns follow the Child and Adult Care Food Program (CACFP) meal patterns. The milk requirements for the preschool meal patterns are defined by the USDA's Final Rule, *Child and Adult Care Food Program: Meal Pattern Revisions Related to the Healthy, Hunger-Free Kids Act of 2010*.

In addition to the USDA's meal pattern requirements, milk and nondairy milk substitutes sold to students in public schools (as part of and separately from school meals) must also comply with the state beverage requirements of [Section 10-221q](#) of the Connecticut General Statutes (C.G.S.).

This document summarizes the federal and state milk requirements for each school nutrition program and provides applicable resources. School food authorities (SFAs) must ensure that milk meets the specific requirements for each school nutrition program and grade group. For additional guidance, refer to the Connecticut State Department of Education's (CSDE) [Operational Memorandum 06-19: Summary of Federal and State Milk Requirements for the National School Lunch Program \(NSLP\), School Breakfast Program \(SBP\), Afterschool Snack Program \(ASP\) of the NSLP, and Special Milk Program \(SMP\)](#).

For information on complying with the meal patterns for school nutrition programs, refer to the CSDE's guides, [Menu Planning Guide for School Meals for Grades K-12](#), [Menu Planning Guide for Preschoolers in the NSLP and SBP](#), and [Afterschool Snack Program Handbook](#). For information on crediting foods, visit the CSDE's [Crediting Foods in School Nutrition Programs](#) and [Meal Patterns for Preschoolers in School Nutrition Programs](#) webpages.

This information is subject to change as the USDA continues to issue policy guidance on the meal patterns for school nutrition programs. The CSDE will notify SFAs when new guidance is available.
